

CTE @ CENTRAL LEE

CTE Vertical Team Meeting
November 20, 2016
2:00pm – 4:00pm

Members Present: Tom Boeck, Brent Koller, Angie Moore, Melanie Scheetz, & Kyle Van Ausdall. Justin Schau was absent.

#1 Each strand (Ag, Business, FCS, & Industrial Tech) to revisit their standards in our CTE shared folder. Members should create a revised list of standards, excluding all the benchmarks under each standard.

Purpose: to have a concise list of standards to be uploaded into the new PowerTeacher Pro portal for use after the conversion to PPro in the fall of 2017.

#2 To discuss the email from Kelli Diemer regarding the CTE Redesign Legislation. Nothing really new or changes from the previous meeting. Andy Crozier said that CTE didn't need to do anything locally regarding the redesign at this point.

Purpose: to see if anything needs done right now from Central Lee's standpoint regarding the update redesign to CTE.

#3 To discuss the CTE position with SCC's President Dr. Ash. Again, Andy indicated nothing to be done at this point from the CTE Staff.

Purpose: to see if anything needs done now in order to "water" the relationship with SCC and grow with them to help CL become a CTE Regional Center.

#4 To have the CTE staff complete the CTE Resource Template. Template includes all the courses that each CTE Teacher instructs, the resources that are currently used in each class, and additional resources that are needed to move the course forward.

Purpose: to see the needs of the CTE Department for budgetary purposes in the upcoming year.

Next meeting: Follow up on CTE Redesign and monitor its' progress. Also look at improving our connections with our students to the community through job shadows, career days, internships, and others. Continue to look at PPro and see how the standards can be linked to each assignment.
