

CTE @ CENTRAL LEE

CTE Vertical Team Meeting
September 21, 2016
2:00pm – 4:00pm

Members Present: Tom Boeck, Brent Koller, Angie Moore, Melanie Scheetz, Justin Schau, & Kyle Van Ausdall

#1 Each strand (Ag, Business, FCS, & Industrial Tech) to upload their Standards & Benchmarks into the CLHS CTE shared folder in Google Docs. A folder inside the main folder was made for each strand's Standards & Benchmarks.

Purpose: to have a central location for CTE files including Standards & Benchmarks and other appropriate files and information.

#2 To dissect the CTE Reform Legislation video / PowerPoint. Tom & Melanie to take segment 1 (Start – 11:00 minutes), Justin & Brent segment 2 (11:00 – 22:00 minutes), and Angie and Kyle segment 3 (22:00 – end). Reconvene after viewing segments and share out about highlights of each segment. Recorded the results in a Google Doc called “CTE Reform Notes”. Everyone concerned what the “rules” may look like for each strand. Melanie especially concerned with FCS moving to Health Sciences and what her program may look like at CL as a result thereof. Justin, Melanie, & Kyle very interested in teaching concurrent enrollment classes.

Purpose: to see if anything needs done right now from Central Lee's standpoint regarding the update reform to CTE.

#3 To discuss the CTE presentation to SCC's President Dr. Ash. Bring Justin up to speed about what the presentation was all about. Kyle will follow up with Dr. Ash regarding being able to teach concurrent enrollment classes for SCC / Central Lee.

Purpose: to see if anything needs done now in order to “water” the relationship with SCC and grow with them to help CL become a CTE Regional Center.

Next meeting: Follow up on CTE Reform and monitor its' progress. Also look at improving our connections with our students to the community through job shadows, career days, internships, and others.
